I have a proposal...

ENERGHERE

15%

Value of **sales lost** by African companies as a result of power blackouts and shortages.

US \$21 billion

Spent p.a. by African Governments covering **utility losses**
and subsidizing **oil-based products**.

Untapped resources

10 TW of **solar potential**, 350 GW of **hydroelectric potential**,
110 GW of **wind potential** and 15 GW of **geothermal potential**.

The logo for ENERGHHERE is displayed in a white, modern, sans-serif font. The letters 'E' and 'H' are stylized with horizontal bars extending from their top and bottom respectively. The background features a dark, textured globe with a network of thin, white lines connecting various points across its surface, suggesting a global energy network.

Market overview

The electricity demand of Sub-Saharan Africa's commercial & industrial businesses will reach approximately:

1100 TWh p.a. by 2040

growing at an average of 4.1 % p.a.

By 2040 the C&I power consumption in SSA would be half that of the EU in 2010.
